

## **iProject Viewer, Microsoft Azure and Google Docs – The Project Manager's Power Suite**

*Pittsfield, MA USA October 19, 2011* - Viewer Central, Inc., the global leader in solutions for viewing Microsoft Project files, announces the release of **iProject Viewer** - a free app which brings together two powerful tools for today's project professionals: Microsoft Project and the iPad.

With the release of **iProject Viewer**, Housatonic completes the project management power "suite." Armed with the iPad, the project manager can use the iProject Viewer App (now available free on iTunes) to leverage the Housatonic Project Viewer Online (hosted on Microsoft's Azure platform) to open, sort, filter, print or share the project plan (MPP) stored securely on Google Docs (or Office 365, company web server, etc.)

**iProject Viewer** is a free app available from iTunes that offers 1-click access to Microsoft Project files. iPads bring a lot more than portability to the Project Manager's toolbox. The pinch / stretch functionality brings a new intuitive functionality to zooming in and out on project details.

iProject Viewer is on iTunes at <http://itunes.apple.com/us/app/iproject-viewer/id463199295?mt=8>

Housatonic's Project Viewer Online is a fully functional viewer for Microsoft Project (mpp) files hosted on the **Microsoft Azure platform**. Housatonic's Project Viewers offer the exact same search, sort, filter, share and print functionality as Microsoft Project with the same familiar interface. Housatonic Project Viewers are compatible with MS Project 2011 files as well as all earlier versions.

For more information about Housatonic Project Viewers visit [www.projectviewercentral.com](http://www.projectviewercentral.com).

**Google Docs** offer a free secure option for storing project files for access by team members near and far. Using Google Docs, combined with the Housatonic Project Viewer Online, it is possible to set up a comprehensive project management hub – capable of supporting team members on multiple platforms and multiple locations - quickly and securely at no cost.

For more information about Google Docs visit <http://docs.google.com>.

Housatonic provides project management solutions that power collaboration and empower team members. Housatonic Software is dedicated to serving the needs of project managers and their teams by developing powerful, cost-conscious solutions.
